

IMMUNIZATIONS

All students of all grade levels have a required & current immunization record or a state approved exemption form on file with the school prior to their admission to school AND this information is made available to parents on the school website. 70 O.S. § 1210.191

Documentation: Assurance Letter signed by the Superintendent verifying a current record of immunization or exemption form is on file for each student & is made available for review and a website printout or screen shot showing parent information

70 O.S. 2011, Section 1210.191 A

No minor child **shall be admitted** to any public, private, or parochial school operating in this state **unless and until certification is presented** to the appropriate school authorities from a licensed physician, or authorized representative of the State Department of Health, **that such child has received or is in the process of receiving immunizations** against diphtheria, pertussis, tetanus, haemophilus influenzae type B (HIB), measles (rubeola), rubella, poliomyelitis, varicella, and hepatitis A or is likely to be immune as a result of the disease.

70 O.S. 2011, Section 1210.191 E

The State Department of Education shall provide and ensure that each school district in this state provides, on the school district website and in any notice or publication provided to parents regarding immunization requests, the following information regarding immunization requirements for school attendance: "For school enrollment, a parent or guardian shall provide one of the following:

1. Current, up-to-date immunization records; or
2. A completed and signed exemption form."

EXEMPTIONS FROM IMMUNIZATION (REGULATION)

Exemptions from immunizations require the following:

1. Medical contradictions: A signed statement (ODH form 216A) from a licensed physician stating the physical condition of the child is such that immunizations would endanger the life or health of the child.
2. Religious objections: A signed statement (ODH form 216A) from the head of a religious organization stating immunizations are contrary to the teachings of the religion.
3. Parental objection: A signed statement (ODH form 216A) from a parent or guardian objecting to the required immunizations.

Immunization Requirements Guide: 2022-23 School Year

➤ All children two months of age and older must present an immunization record or file for an exemption before they are allowed to attend child care or school in Oklahoma. *Please read the bullets below for essential information.*

Age/Grade	Required Immunizations with Cumulative Doses required	Recommended Immunizations	
Child Care <i>Up to date for age</i>	4 DTaP (diphtheria, tetanus, pertussis) 1-4 PCV (pneumococcal) ◆ 1-4 Hib (<i>Haemophilus influenzae</i> type B) ◆ 1 MMR (measles, mumps, rubella) 1 Varicella (chickenpox)	3 IPV (polio) 2 Hep A (hepatitis A) 3 Hep B (hepatitis B)	Seasonal Influenza (flu)
Preschool/Pre-K	4 DTaP (diphtheria, tetanus, pertussis) 1 MMR (measles, mumps, rubella) 1 Varicella (chickenpox)	3 IPV (polio) 2 Hep A (hepatitis A) 3 Hep B (hepatitis B)	Seasonal influenza (flu) 2 nd varicella at 4 years old Polio on or after 4 th birthday
Kindergarten-6th	5 DTaP (diphtheria, tetanus, pertussis) ★ 2 MMR (measles, mumps, rubella) 1 Varicella (chickenpox)	4 IPV (polio) ◀ 2 Hep A (hepatitis A) 3 Hep B (hepatitis B)	Seasonal influenza (flu) 2 nd varicella at 4 years old Polio on or after 4 th birthday
7th-12th	1 Tdap (tetanus, diphtheria, pertussis) ● 5 DTaP (diphtheria, tetanus, pertussis) ★ 2 MMR (measles, mumps, rubella) 1 Varicella (chickenpox)	4 IPV (polio) ◀ 2 Hep A (hepatitis A) 3 Hep B (hepatitis B) ■	Seasonal influenza (flu) 2-3 HPV (human papillomavirus) 1-2 MCV4 (meningococcal ACWY) 2-3 Men B (meningococcal serotype B)

➤ The current childhood immunization schedule may be found at <https://www.cdc.gov/vaccines/schedules/index.html>.

- Doses administered 4 days or less before the minimum intervals or ages are counted as valid doses. This does not apply to the 28-day minimum interval between doses of live vaccines not administered on the same day.
- If a parent reports their child had varicella disease (chickenpox), the child is not required to receive varicella vaccine. Record the child's history of varicella.
- The first doses of measles, mumps, and rubella (MMR), varicella, and hepatitis A vaccines must be administered on or after the child's first birthday (or within 4 days before the birthday), or they will not count toward the immunization requirement and must be repeated.
- It is not necessary to restart the series of any vaccine if a dose was given late or if a dose is past due. Additional doses of a vaccine series that are administered after the due date do not affect final immunity.
- Children may be allowed to attend child care and school if they have received at least one dose of all required vaccines due for their age or grade, and the next doses are not yet due. They must complete the remaining doses of vaccine on schedule. These children are in the process of receiving immunizations.
- Hib and PCV vaccines are not required for students in preschool, pre-kindergarten, or kindergarten programs operated by schools, unless the facility is a licensed child care facility. Hib and PCV vaccines are required for children attending licensed child care facilities.
- ★ If the 4th dose of DTaP is administered on or after the child's 4th birthday, then the 5th dose of DTaP is not required.
- ◆ The number of doses of PCV and/or Hib may range from 1 to 4 depending on the age of the child, when the first dose was given, and type of vaccine used.
- ◀ If the 3rd dose of IPV is administered on or after the child's 4th birthday, and at least six months from the previous dose, then the 4th dose of IPV is not required.
- Students 11 through 15 years of age who have not received Hep B vaccine may receive a 2-dose series of Merck® Adult Hepatitis B vaccine to comply with this requirement. All other children (younger or older) must receive 3 doses of pediatric hepatitis B vaccine.
- The Centers for Disease Control and Prevention (CDC) recommends a dose of Tdap on or after the 10th birthday even if previously received. An inadvertent dose of DTaP on or after the 10th birthday may be accepted for the 7th grade Tdap requirement.
